SABIAN 12" Stratus Cirro Stax

The new 12" STRATUS Cirro Stax features a 12" top that is raw on the front and lathed on the back, which reduces tension and contributes to a loose, wavy, and flexible design. The 12" bottom is flat and raw. Pairing the two creates a structure that can be tightened to shorten attack or left loose for a sizzle effect. The 12" top can also be played alone to create a striking phaser sound.
