SABIAN AAX Promotional Set

The AAX Promotional Set from SABIAN introduces a whole new palette of sound to the AAX line. A whole new style of AAX hammering ? much more visible on the surface of the cymbal due to the larger, rounder peen ? makes for a thinner, more complex and slightly darker cymbals. At the same time, more highs are introduced into the sound, resulting in a wider band of frequency. For drummers, that means brighter highs and more complex lows. SABIAN has always pushed the boundaries of innovation, using the latest manufacturing technology to answer new trends in music and sound, and the AAX Promotional Set is no exception.
