SABIAN 15" HHX COMPLEX MEDIUM BIG CUP HAT TOP

Using trickle down technology gleaned from years of developing some of the world’s top selling cymbals lines like Evolution, Legacy, and even Artisan, SABIAN HHX Complex is a line of exquisitely dark cymbals. These cymbals employ a combination of HH and HHX hammering, a raw bell, and a number of the aforementioned proprietary techniques – resulting in the richest and sweetest rides and crashes, and the fattest sets of Hats SABIAN has ever produced. Big Hats – Big Cup! The 15” HHX Complex Big Cup Hats, have an oversized cup that not only enhances their overall cut and response but also produces a feel more like a smaller pairing, giving you the fullness of 15’s with the feel of 14’s.
