SABIAN 17" HHX Complex O-Zone Crash

Using trickle down technology gleaned from years of developing some of the world's top selling cymbals lines like Evolution, Legacy, and even Artisan, SABIAN HHX Complex has redefined the modern sound. HHX Complex O-Zone Crashes aim to continue that same course, delivering dark, raw, aggressive bite, while employing SABIAN's historic, innovative 2"-hole design pattern. The cut is quick and aggressive, resulting in a tone that is dark and explosive.
