SABIAN 19" HHX Legacy Crash

With its dark tone, the highly-responsive SABIAN 19" HHX Legacy Crash is a punchy, dark and complex cymbal, capable of playing loud while remaining always musical. Developed with Dave Weckl, Legacy is the "dark side" of Dave's sound: the yin to Evolution's yang. The 19" Legacy Crash is vibrant, trashy and beautiful, with dark, musical color that encompasses a full tonal spectrum and a dark, complex personality.
