SABIAN 20" HHX Evolution Crash

In response to demand for larger cymbals, Dave Weckl asked the SABIAN design team to add a larger Crash cymbal to the Evolution family. The result is a warm, explosive 20" Evolution Crash with fast, shimmering response and increased projection and cut. As with all HHX Evolution models, SABIAN craftsmen delivered on Dave's vision of a thin Crash with buttery soft feel and glassy attack. To this day, Evolution Crashes remain the standard by which all other Crash cymbals are measured.
