SABIAN 20" HHX Medium Ride Brilliant Finish

The 20" HHX Medium Ride introduces a whole new design to the HHX line. Starting with a round of sparse hammering, followed by lathing, then denser HHX hammering over top, the result is a Ride cymbal that is thinner, darker and faster. A larger bell boosts volume and power – although this is still a Ride that trends lighter in weight than most Medium Rides. The versatility to easily cross musical styles has always been a hallmark of the HHX line, and the 20" HHX Medium Ride delivers. If you're seeking a Ride with rich, dark sticking and controlled warm spread – this is it!
