SABIAN 21" HHX 3-Point Ride

Based on an idea from jazz giant Jack DeJohnette, the SABIAN 21" HHX 3-Point Ride offers dark, smokey tone with varying sound nuances across 3 distinct playing surfaces. Until HHX, it was impossible to project darkness. But the dark, simmering sound, agitated bite and "Tone Projection" design of HHX makes this series more effective than others. Other cymbals may generate darkness, but HHX stirs up more simmering heat, more musical dirt, more of what drummers want to hear – and projects it. It gets you heard. And felt. HHX "Tone Projection" is an innovative design, created by the SABIAN Vault team.
