SABIAN HHX Performance Set Brilliant Finish

The HHX Performance Set introduces a whole new design to the HHX line. Starting with a round of sparse hammering, followed by lathing, then denser HHX hammering over top, the result is a line of cymbals that are thinner, darker and faster than the HHX Studio, Stage and Power models they replace. A smaller bell on the Thin Crashes and Ride ensures a faster attack and cymbals that trend lighter in weight. The versatility to easily cross musical styles has always been a hallmark of the HHX line, and the HHX Performance Set – with 14" Medium Hats, 16" and 18" Thin Crashes and a 21" Thin Ride – is no exception.
