SABIAN 16" XSR Rock Crash

Crafted from pure SABIAN B20 Bronze using trickle-down technology from award-winning Evolution and X-Plosion cymbals, XSR delivers unrepresented sound and performance at a price designed to fit your cymbal budget. With a large bell and increased metal thickness, the SABIAN 16" XSR Rock Crash is designed to deliver full, bright and powerful accents that cut through the heaviest volumes. XSR is not a budget series, but rather a line of smartly-priced cymbals that would not be out of place on any drum kit, on any stage.
