SABIAN XSR Sizzler Stack

This smartly priced stack looks almost as good as it sounds. We say “almost”, because it sounds so sick it has the power to stop loud guitars dead in their tracks. A thin, dry 16” Monarch O-Zone Crash top over a nasty, aggressive 16” XSR China serves up sizzling-loud attack that is sure to please. The response is raw, tonally tight and highly aggressive. The Monarch O-Zone top offers a vintage look that belies the modern sizzle this rad stack offers all players – from drummers on a budget to seasoned pros.
