SABIAN 17" HHX COMPLEX SUSPENDED

Using trickle down technology gleaned from years of developing some of the world's top selling cymbal lines like HHX Evolution and Legacy, and even Artisan, SABIAN HHX Complex is a range of exquisitely dark cymbals. The Complex Suspended employs a combination of HH and HHX hammering, a raw hammered bell, and a number of the aforementioned proprietary techniques resulting in one of the richest, sweetest suspended cymbals SABIAN has ever produced. With a thin bow and extra hammering on the bell, the HHX Complex Suspended speak very quickly and maintain their color and vitality at all dynamics.
