SABIAN 20" XSR Suspended

Crafted from pure SABIAN B20 Bronze using techniques learned from designing award-winning Evolution and X-Plosion cymbals, XSR delivers unprecedented sound and performance at a price designed to fit your cymbal budget. SABIAN 20" XSR Suspended Cymbals are a great addition to any program looking for the combined value of great sound and smart price. 20" XSR Suspended Cymbals work well in band and orchestral compositions that require a great deal of volume. Because it's a 20" cymbal, it won't be as sensitive as smaller cymbals when played at softer dynamics. This cymbal has enough weight to provide articulation for ride patterns without generating too much wash. Generally XSR cymbals are higher in pitch than other B20 series, with a slower response time.
