SABIAN 18" B8X Suspended

The first-ever Suspended model in B8 alloy from SABIAN, B8X Suspended cymbals are also the first ever suspended models at a school budget-friendly price point. B8X Suspended Cymbals include fully hammered bells, modified profiles and smooth lathing. These characteristics, as well as a great new logo and look, make B8X Suspended Cymbals a great value. The new B8X technology, low profile and B8 alloy combine to produce a high-pitched suspended cymbal with a rich and airy sound.
