SABIAN 14" Quiet Tone Drum Mute/Practice Pad  
(Snare) | PAD | allenatore |

Special sound absorbing mesh reduces volume by up to 90% so you can practice quietly. Real drumhead delivers real drum feel for authentic sticking and brushwork. Triple-flanged metal hoop is ideal for rim shots and cross-sticking, just like a real drum. Adjustable tensioning lets you control the response and feel for diverse styles of playing. Patented non-slip rubber feet transfer the energy from your drumstick to the drumhead.
