AUDIODESIGN PMU AS PRO 8+2 AMPLIFICATORE E SPLITTER ANTENNA CON ANTENNE DIREZIONALI

Dati tecnici: Antenna Distributor : Low noise and amplifying circuit design - Low loss antenna dividers circuit design (8+2 Ch) - Antenna In/Out Impedance: 50O - Antenna In/Out socket: BNC - Gain: 3dB - Bandwidth: 200MHz - Power requirements: DC 12-18V 300mA - Dimensions: 45*410*160mm -

Wide Band Directional Antenna 2x directional antenna - Directional antenna, decrease the interference. High sensitivity, increase the signal receiving range. Wide frequency range, cover all of the UHF. Antenna In/Out Impedance: 50O - Antenna In/Out socket: TNC - Gain/Attenuation: -6/0/+6/+12 dB

Bandwidth: 400MHz - Power requirements: DC 12-18V Phantom powered
