KONIG & MEYER 24654-000-55 | Lighting/Speaker stand »Pro«

Attractive stand for lights and loudspeaker cabinets. Thanks to the heavy, flat steel plate (550 x 550 mm), the stand is ideal for use where space is at a premium. Depending on requirements, there are three ways to position the pole. In addition to the centric and off-center position, the tube combination can also be mounted in the corner. A carrying handle, a cable management system and four stable feet are further useful features. The usable height is between 1,420 and 2,420 mm and can be reached in 5 steps of 200 mm. The tried and tested K&M clamping screw and the robust locking bolt are used for fixing. The integrated M10 threaded bush enables the attachment of a truss or the direct attachment of lights. The maximum centric load capacity with full extension is 30 kg. Load-bearing capacity: 30 kg. Weight: 17.4 kg, H: 1,420/2,420 mm, extension tube diameter 35 mm.
