KONIG & MEYER 26727-000-55 | Speaker stand »Pro«

Our strongest speaker stand with space-saving base plate. Thanks to the heavy, flat steel plate (550 x 550 mm), the stand is ideal for use where space is at a premium. Depending on requirements, there are three ways to position the pole. In addition to the centric and off-center position, the tube combination can also be mounted in the corner. A carrying handle, a cable management system and four stable feet are further useful features. The usable height is between 1,110 and 1,810 mm and can be reached in 4 steps of 175 mm. The tried and tested K&M clamping screw and the robust locking bolt are used for fixing. The maximum centric load capacity with full extension is 50 kg. Load-bearing capacity: 50 kg. Weight: 16.45 kg, H: 1,110/1,810 mm, extension tube diameter 35 mm.
