PLANET WAVES 50BAL00 AUTO LOCK GUITAR STRAP

The D’Addario Auto Lock Guitar Strap is the simplest integrated strap locking system for your performance. Simply slide the strap end over the guitar strap buttons and you are locked in - it’s that easy. The grey latch is spring-loaded so it automatically clamps down on the strap button and will not release until you want it to. Just push up on the grey latch, slide off the end, and the strap is removed. Works with most strap buttons on the market. The Auto Lock Guitar Strap was designed in partnership with Ned Steinberger.

- Simple, integrated strap lock design
- Soft nylon material adjustable from 30” – 55”
- Works with most strap buttons on the market
- Ned Steinberger design

Designed for players of all genres, D'Addario woven straps offer designs that will please even the most discerning player. From iconic themes to unique patterns and artwork, these durable straps are sure to accent any guitar and are adjustable from 30" to 55" long
