DPA DMM0014 CLIP FOR D:SCREETT 4080

This single clip is delivered as standard with d:screet™ 4080 Miniature Cardioid Microphone, Lavalier.
The unique mounting design, around a ball-shaped fixation spot, allows the directional microphone to easily be turned in all directions.
The clip fits both left- and right-side buttoned shirts.

To increase the system's immunity to cable noise, the clip features a short cable trail for securing the microphone cable.
