AER BASS CUBE

The AER Bass Cube Amplifier - Is a 'real' 12" and 1" horn coaxial system which works extremely well in its very small bass -reflex cabinet. A huge improvement in sound and quality as well as performance.

The AER Bass Cube had got the power to go down to the lowest frequencies in an effortless manner that can be noticed.

Well balanced analogue sound design covers the range gently proportionate so that the tone always stays crisp, clear and transparent yet powerful and defined. Its two channels are equally equipped and allow two different instrument setups and be sure it works very well for electric bass too.

The AER Bass Cube Amplifier features include:

- Cabinet: 0.7" (18 mm) birch plywood
- Finish: waterbased acrylic, black spatter finish
- 3 channels
- Dimensions: 15.7" (400 mm) high, 15.7" (400 mm) wide, 14.4" (365 mm) deep,
- Weight 44 lbs (20 kg)
- Power amp: 340 W / 8 ohms
- Analog signal processing: Subsonic filter, low distortion RMS limiter, peak limiter
- Speaker: 12" + 1" coaxial 2-way system
