MOTION SOUND PRO 3T

Motion Sound PRO3T Keyboard Amplifier
Add REAL rotary horn sound to your existing amplification system. The PRO-3Tm features a 12AX7 tube with pre and post gain controls and high frequency contour control. Just connect the 1/4" simulator output to your amplifier to complete a full frequency range rotary sound system. The PRO-3Tm features Fast/Slow and Stop speed controls and an output connector for optional LowPro speaker.

* 45 Watts RMS > 800 Hz rotary horn
* 80 Watts RMS rotary horn driver
* 12AX7 Tube Pre-Amp
* Fast / Slow / Stop dual button footswitch
* 1/4" input
* Pre, Post gain controls and contour control
* 1/4" left and right simulator outputs
* 5-Pin DIN connector for optional LOW-PRO speaker
* Built-in microphone to 1/4" output
