CORT GA-MEDX MAHOGANY OPEN PORE

The new GA-MEDX M OP is an all-mahogany model that joins the GA Series for players who love mahogany and its distinctive look and character in the Grand Auditorium body and which is more affordable and delivers outstanding performance for its price.

Developed in accordance with recent acoustic guitar market trends, this model features not only mahogany back and sides but mahogany top as well. Although darker sounding than spruce, mahogany produces a warmer tone with a full rich mid-range.
