FLAXWOOD LAINE - ORANGE BURST

Vintage single-coil twang, Flaxwood-style

Soundwise the most Strat-like of our entire line, the Flaxwood Laine (laine = wave) is a small sensation in the making. Combining Seymour Duncan lipstick pickups with the ultra-stable Schaller LP Tremolo, the laine delivers chiming, bell-like cleans and beautiful overdriven tones ideally suited to everything from country and blues to funk and modern r'n'b. Equipped with a blender pot which gradually blends the neck pickup signal with that of the bridge pickup.
