ULTRASONE PROLINE 550 HEADPHONE

P.S.: I cuscinetti sono da sostituire

Linea professionale con sistema ULE(Ultra Low Emission) sviluppata e progettata specialmente per i professionisti. Adatta per bassisti e batteristi.

P.S.: I cuscinetti sono da sostituire

The Proline 550 is a very fun headphone to listen to. With the hardest hitting bass we've heard from such an efficient headphone this model rocks out very nicely!

PROline stands for Ultra Low Emission and means significant benefits for professional users as it is highly-developed and specially designed for professionals. The new design does not only distinguish the professional line but also allows due to more ear anatomy area a higher degree of transparency in combination with the spatial sense and understanding.
