OMNITRONIC LH-061 PRO PASSIVE DUAL DI BOX

DUAL DI-BOX PASSIVA

Passive 2-channel DI box with split mode
2 high-impedance signal inputs via two 6.3 mm jacks
2 low-impedance XLR outputs
2 feed-through outputs (6.3 mm jack)
Converts 2 separate unbalanced line inputs (e.g. CD player, instruments) into 2 balanced XLR outputs, for connecting a mixer
Switchable input attenuation: 0 dB, -20 dB, -40 dB
Ground-lift switch eliminates signal interference and ground loop problems
Modern convex housing design with rubber corners for safe positioning
Stackable
Cables can be routed under the housing
