BLACKSTAR SERIES ONE 412A CABINET

The Series One 412 cabinet is a classic 'tall vintage' sized 4x12 design, using Celestion Vintage 30 speakers. Constructed from premium grade materials and using traditional methods, this finger-jointed, birch-ply cabinet delivers awesome tone and projection in both angled and straight-fronted formats.

The Celestion Vintage 30 Speaker recreates the sound of the original Celestion Blue with new cone and new coil assembly. Improved performance rated at 60W capability, handles extra heat generated by higher power equipment. The Vintage 30 handles massive overdrive tones with ease.

The oversized vintage Blackstar cabinets are built to the highest standards using the finest materials. Every care has been taken with the design of these cabinets to ensure that they produce the best possible sounds and will last a lifetime.
