JTS SIEM111-SYS1 IN EAR MONITOR

SISTEMA IN EAR MONITOR UHF COMPLETO - AURICOLARI IE-1 INCLUDE

(Att.ne : nella foto sono riportate per errore le auricolari IE-6 !!!)

Composto da : Trasmettitore SIEM-111/T , Ricevitore SIEM-111/R , Auricolari IE-1

- ! The SIEM-111 System features reliable JTS UHF PLL technology.
- ! There are 961 selectable UHF channels available. As many as 16 sets of SIEM-111T transmitters can operate on the same stage.
- ! The system offers 4 groups, with each group having 16 compatible preset channels to choose from. This allows the monitor engineer to set up systems quickly and easily.
- ! All metal case construction on the SIEM 111R and SIEM 111T
- ! The JTS advanced circuitry assures outstanding signal-to-noise ratio.
- ! IE-1 and IE-6 earphones seal off the ear canal with JTS designed Dyna-Driver ear buds which reduce undesired stage noise, ambient sound levels.
- ! 3 pairs of different sized Silicon sleeves included with the IE series earphones ensure a right fit for the users ear canal and comfort.

System Specifications

S/N Ratio 80 dB (A Weighted)
Image Rejection 80 dB
Channel Separation 35dB
Frequency Response 60 Hz~15 kHz (-3dB)
T.H.D. 1% Typical
Frequency Stability $\pm 0.005\%$
