PREMIER CLASSIC ENGLAND - NORWEGIAN BLUE SPARKLE (4 PZ) ** NO HARDWARE **

*** PRODOTTO IN ESPOSIZIONE ***

Premier Series Classic features a North American maple shell construction. North American maple shells are 7-ply pressure-bonded shells and undersized by 3mm, the traditional characteristic of Premier professional drums. This coupled with a precision-cut bearing edge allows the drumhead to sit flatter, producing increased sustain and low-end frequencies which result in an extraordinarily versatile tuning range. This design characteristic borrows from our finest orchestral timpani where tone and clarity are key. Rack toms are fitted with the stylish flush-fit ISO mount which allows closer positioning in multi-tom set-ups and firm support with no unnecessary loading on the shell allowing optimum resonance. 'Crosstalk' between drums is also minimised, a bonus in any recording or live miking situation. With the distinctive Premier Series lug finished in Diamond Chrome, 2.3mm triple-flange steel hoops, and the quality assurance of the legendary "Red P" badge, these drums are ready for action. Tuning is made easy as Remo heads are fitted as standard. Pre-configured shell packs North American maple shell construction 5.7mm 7-ply un-supported shells 3mm undersize (toms and floor toms) Internally lacquered shell Diamond Chrome lugs Flush-fit ISO mount 2.3mm triple-flange steel hoops Nyloc lug insert prevents detuning Claw hook with protective rubber liner Integral memory lock Legendary 'P' badge Drumheads by Remo Roklok tom holder included with shell packs 22897.

Set composed by: Bass Drum 22", Tom 10", Tom 12", Floor Tom 14". (HARDWARE E PIATTI ESCLUSI)
