BOOMERANG CHORUS / DELAY (E-155)

The Boomerang® E-155 Chorus/Delay pedal has a wide range of gorgeous sounds that will satisfy the most discriminating tone hound. In mono the effects are rich and delicious, and in stereo they are huge and room filling.
Why run your great guitar & boutique amp through a typical, whimpy stomp box when you can have studio quality effects on your pedal board? Upgrade to a Rang™ E-155 Chorus*Delay.

- 3 types of chorus: Classic, Shimmer & Lush.
- 3 styles of delay: Clean, Tape & Reverse.
- When used with a stereo rig, the Clean style provides a "ping-pong" delay.
- 11 presets for storing your sounds.
- Expression pedal controls overall effect level OR individual parameters (as many as you want).
- Smoothly morphs between two completely different sounds.
- Delay tail fades naturally after effect is turned off.
- There are a variety of input & output routing options.
- Presets can be recalled by MIDI Program Change commands from an external controller.
- AirMixTM Output places wet and dry signals on separate outputs.
- Legendary Boomerang® reliability and mojo.
- Rugged 9" x 6" x 2" steel chassis.
