JOYO JF-315 IRONMAN METAL HEAD

JOYO JF-315 Metal Head Distortion Mini Guitar effect pedal is taken from the 3rd generation of JOYO pedals, the Ironman range. A great guitar Metal rock sound is hard to achieve from a guitar pedal, but the JOYO Ironman mini pedal pulls this effect off perfectly, it is perfect for the Metal Head within you. From jaw dropping dropping hard fat chunks to a screaming high gain, the gain is picked just right. The added EQ section with Mid and High controls, give you lots of control and you won't need the LOW.

Lots of mid warmth and a high end bite right where you want it.
