JOYO PXL-LIVE EFFECT PEDAL LOOP MIDI 8 OR 2X4 CONTROLLER

The pxl-live is the newest member of the joyo pxl series programmable pedal controllers - pxl4, pxl8, pxl-pro. The pxl-live is a very powerful pedal controller. It not only has dual 4 channel outputs like the pxl-pro, and dual (relay)switch outputs for channel switching, it also has MIDI out. Programmable MIDI commands can be sent enabling you to control MIDI enabled devices such as: effect pedals, effects racks, keyboards or amps through the MIDI port. The pxl-live can send MIDI cc and MIDI program change commands at the same time and will allow “Hands free”control of your computer recording software. For musicians who own a lot of musical gear, the pxl-live will be the perfect pedal controller to make life easier.
