JOYO JF-301 IRONMAN RATED

The JOYO JF-301 Rated Boost Clean Boost Mini Guitar Effects Pedal is an exceptional all round Clean Boost mini guitar effects pedal. The JF 301 Rated Boost is taken from the 3rd generation of JOYO pedals a result of 8 years of JOYO technology and expertise. Compact, versatile and with a metal housing will ensure this pedal fits easily onto any board . Flip the lid to keep your tones protected, the LEDs shine through when active.

"Similar in style to the JOYO AC TONE, a subtle overdrive like a British combo amp as it starts to clip. I recommend it with the JOYO PIPE BOMB for some subtle feedback. Plenty of scope for tone control too, so whether you favour a Telecaster Or a Les Paul,you'll get the sound you want" Matt our UK product Guru.
