EVANS CS14S PELLE BATTENTE RULLANTE STRATA 700 14"

For over 60 years, Evans has been an innovator in drumhead manufacturing and design. As the creator of the first synthetic drumhead and other revolutionary products such as EMAD, Hydraulics, and the UV1 series, Evans drumheads are designed with the intent of solving problems for drummers. Regarded for high quality and consistency all Evans drumheads are made in the USA and feature Level 360 Technology.

Evans™ 14" Strata™ 700 concert snare drum head features a single ply of 7.5mil film with a coating that closely resembles traditional calf skin in sound and feel. The Strata 700 offers balanced sustain with mid-range overtones.
