BEYERDYNAMIC TGI55C HELIX INSTRUMENT MICROPHONE

Beyerdynamic TG I55c condenser instrument microphone has an omnidirectional pickup pattern and comes complete with helix clamp. The versatile TG I55c helix condenser microphone really demonstrates its strengths when used in combination with the violin, viola, recorder, dulcimer, fretted stringed instruments or zither, cello, double bass and many other instruments.
TGI-55c delivers extremely natural, true sound reproduction without colouration due to the proximity effect. The omni-directional polar pattern ensures even sound – regardless of how the capsule is positioned. A further advantage is the unique, innovate clamp that enables quick and easy mounting without drilling holes and without scratching the instrument.

Water resistant
