SABIAN 21844 AA FAST CHINESE 18"

SABIAN AA cymbals are made from 80% copper and 20% tin. During manufacturing, the blanks are rolled in up to 8 different directions, which lends the cymbal its great flexibility. The cymbal's bell and curvature are pressed into the flat, disc-shaped blank in a press. The cymbal is subsequently machine hammered and lathed by hand. This is how each cymbal gets its individual sound characteristics.

### Features:

- Size: 18"
- AA Series
- Brilliant finish
- Powerful China crash
- Bright sound
- Ideal for accentuation and effects
