GRAVITY LSTBTV17 SUPPORTO PER LUCI CON TRAVERSA PICCOLA

Caratteristiche:
- Struttura a treppiede solida e resistente
- Tubi in acciaio ultraresistenti
- Robusto collare gamba in alluminio pressofuso
- Due estensioni

The GLSTBTV17 is a classic tripod lighting stand with twin extensions, made from thick walled, yet lightweight powder coated steel tubing. The die-cast aluminium leg collar has been completely redesigned to provide superior durability and longevity.

The unbreakable height adjustment collars are made of steel for additional strength and feature safety pins to securely lock the extensions in place. The ergonomic set screw knobs are made from high grade ABS with a soft touch, non-slip thermoplastic coating for comfortable handling. The stand includes a T-Bar with an ergonomically formed and rubberised T-Joint – making the T-Bar not only easier to handle and carry but also better looking than regular stands.
