SENNHEISER E835S DYNAMIC CARDIOID MICROPHONE ON/OFF SWITCH

Dynamic cardioid microphone designed for speech and vocals. With a solid sound that cuts through high volumes on stage. Intended for home recording, semi-pro studios and live sound applications. Extra on/off switch.

Everything else is just standard.

Not plastic, metal. No muffled, mids-centric sound but tight low mids and present treble. No problem with feedback, spill or handling noise' instead, maximum flexibility for the voice: the e 835 is a solid choice for performers. Moderation and singing remain crystal clear and natural, even at varying distances from the capsule. Its extremely rugged construction and uncomplicated handling make the e 835 the first choice for rehearsal rooms, home recording or the stage. It has also become a top seller in its class everywhere that speech intelligibility is critical: lectures, presentations or conferences in auditoriums large and small alike.

The S-version of the e 835 comes with a noiseless on/off switch.

Features:
- Dynamic cardioid microphone for speech and vocals with noiseless on/ off switch
- Cuts through high on-stage levels
- Clear reproduction with a high presence
- Consistent sound quality (varying distances, moving off axis)
- Handles high sound pressure levels
- Isolates handling noise, hum compensating coil
- Excellent feedback rejection
- Rugged metal housing
