2BOX DRUMIT FIVE

Module: 10 dual-function trig inputs, (max 14 independent trig channels), 2 audio line in, 6 audio line out plus headphones (8 total), USB (full-speed), MIDI in and out, (17 1) * 4 character LCD, 10 channel buttons, 9 system buttons, 3 rotary dials, 1 volume knob, external power supply.
Sounds: Recorded in multi channel
Mode: direct mic(s), overhead mics, ambience mics and optional synth channel. Recorded with extensive multi layering and several recordings per layer. Mixed down to stereo DrumIt sounds. User sounds can be created from any wav, aiff or rex files. Also included in the sound library are a large amount of loops and sequences.
Kits: 128 fully editable drum kits.
Pads: 8 to 14 inch sizes equipped with mesh heads, standard heads or special designed rubber heads.
Cymbals: Chokeable three zone cymbals: bell, ride and edge, mounted as traditional cymbals.
Hi-hat: Special hi-hat controller mounted on a traditional hi-hat stand.
Pedals: Hi-hat and kick pedal.
Stand: Rack stand system (proprietary design), brackets are compatible with various other rack stand systems on the market.
Editor: PC / Mac software for editing drum kits on the computer and (in a later revision) editing DrumIt sounds or create multi-sampled user sounds from wav, aiff or rex files.
