AUDIX I5 DYNAMIC INSTRUMENT MICROPHONE

All-purpose professional dynamic instrument microphone

Designed with a cardioid pickup pattern for isolation and feedback control, the i5 all-purpose dynamic instrument microphone is equipped with a VLM™ diaphragm for natural, accurate sound reproduction. The i5 is used for stage, studio and broadcast applications and is able to handle SPLs in excess of 140 dB without distortion.

The i5 cardioid microphone can be used to microphone a wide variety of musical instruments, guitars and bass cabinets as well as vocals and speech. The i5 instrument microphone is sturdy, compact and easy to position. With a wide frequency response of 50 Hz - 16 kHz, the i5 provides clear sound reproduction without having to rely on EQ.

Designed, assembled and tested by Audix in the USA.
