BACH 33532E IMBOCCATURA TUBA/SUSAFONO

A carefully selected Bach mouthpiece can help improve a player's embouchure, attack, tonguing and endurance. Tuba and sousaphone players alike remark on the noticeable difference of using Bach's meticulously crafted instrument parts. Vincent Bach was a rare combination of artist and engineer. A mechanical genius and acclaimed trumpet soloist, his instruments and mouthpieces are used today in every major studio and orchestra in the world. Bach personally designed the tools and composed the plans that continue to set the high standards for making all Bach products today. "Choosing the perfect mouthpiece is often more difficult than choosing the perfect instrument. Your success as a musician depends on the choice of equipment that will do justice to your capabilities."-Vincent Bach
