DPA SCM0013-B 4-WAY CLIP FOR D:SCREETT

A versatile, 4-way clip for our d:screet™ omnidirectional lavalier microphones. It allows you to mount the mic in an upwards, downwards, left- or right-side position.

This lavalier clip is used with omnidirectional microphones that pick up sound perfectly, no matter which direction the microphone is placed in. The rear cable hook controls cable run behind clothes and minimizes the mic's visual appearance.

This clip is available in black only. It does not fit d:screet™ Heavy Duty mics. If you need a clip for a Heavy Duty, choose the SCM0001 Miniature Microphone Clip for Heavy Duty Microphones.

The clip offers:

- Fast and secure mounting
- Upwards / downwards mounting
- Left/right-side mounting
- Multiple cable-management mounts

It fits the following microphones:

- d:screet™ Slim 4160 Omnidirectional Microphone
- d:screet™ 4060 Series Omnidirectional Miniature Microphone.
