DUNLOP DBS50100 STAINLESS STEEL BASS STRINGS 50-110

Bass players demand consistency, durability and versatility from their strings. Dunlop delivers. Dunlop Bass Strings offer traditionalists, slappers, and pickwielding rockers cutting midrange, wide bottom end and a growl that will cut through any band. Carefully selected core-to-wrap ratios yield low tension strings with an extremely long life, and minimal break-in time. Each set is exceptionally well balanced string-to-string, and provides an amazing amount of dynamic range. Dunlop Bass Strings are available in warm and rich sounding nickel-plated steel and punchy and bright stainless steel in all popular and custom gauges.

Every set of Dunlop Strings come packaged utilizing three levels of moisture protection and sealed in a VCI Fresh Technology (Vapor Corrosion Inhibitor) bag to guarantee that your strings arrive as fresh as the day they were made.
