IK MULTIMEDIA TRACKS PLUGIN

SOFTWARE PER MIXING & MASTERING

The new T-RackS 3 raises the bar again in high-end DAW mastering and mixing, with a suite of 9 analog modeled and digital Dynamics/EQ processors, an audio quality that is unmatched in software, and scores of new and unique features.

Caratteristiche
9 processors comprised of 3 new analog and vintage emulations (including models based on the Fairchild 670 and the Pultec EQP-1A), 2 new digital processors as well the 4 classic, award-winning T-RackS processors
New configurable mastering/mixing chain – run up to 12 parallel/series processors
New complete built-in metering section with Peak, Perceived Loudness, Phase, and RMS meters, plus a Spectrum analyzer with Peak, RMS and Averaging indicators
New standalone and plug-in versions available in the same package for use in all the most popular native DAWs
New high-fidelity oversampling with crystal clear transparency, for high quality audio processing throughout the entire signal path
New SCC™ technology coupled with IK's unique DSM™ technology provides the most realistic software emulation of vintage gear to date
Extremely easy to use, with style-based presets, full chain visualization, one-click single module or chain bypass, "compare" function, multiple audio processing in standalone mode and much more
