LATIN PERCUSSION LP808Z GALAXY FIBERGLASS QUINTO

The profile of the LP Galaxy Fiberglass conga is unique in that it’s extra wide at the belly and narrow at the bottom, which results in deep, resonant bass and vibrant highs. The upper portion of the drum is reinforced with Kevlar® fiber, which is twice as strong as steel, ensuring that the drum will sound great for years to come.

Features:
- 30" Kevlar reinforced fiberglass shell with a steel ring embedded at the bearing edge for added strength and stability
- 11" Natural rawhide head
- Black hologram sparkle finish with gold tone hardware.
- Extended Collar Comfort Curve® II Rims
- Premium gold tone Galaxy hardware, reinforced LP Heart side plates with 3/8" diameter tuning lugs and patented LP ProCare Shell Protectors
- Matching bongos and djembe are available
- Tuning wrench included
