PEARL CAJON PEARL DOUBLE FACE PBC512TF

The Two-Face Cajon combines two different cajon sounds into one instrument. This is made possible by two different playing surfaces: on one side is a 5mm thick surface, which produces a mild, wooden sound. The playing surface on the other side is only 3mm thick and delivers a deep, punchy and harder sound. On the inside of both playing surfaces are 3 fixed snare wires.
