PEARL CAIXA 12X4

The “snare drum” played in Samba music is called the Caixa (Kai-sha). Pearl’s Caixa features a 12”x4” wood shell, drum key tunable textured heads, and SR-018 style throw-off. It can be played traditionally around the shoulder with the provided strap, or attached to a stand as an auxiliary snare to your drum kit. Not only will it catch your eye with its yellow, green, and blue Brazilian colors but it’ll also cut through any style of music. Offered in the traditional Brazilian colors of bright blue, yellow and green for dynamic looks that will surely get you noticed where ever you play.
