PHONIC M 2442FX 24-INPUT 4-BUS STUDIO/LIVE MIXER WITH DIGITAL EFX AND GEQ

Phonic's entry-level AM series of mixers are compact and versatile with anywhere between 1 and 4 mono Mic/Line and 2 to 4 stereo line inputs. Ultra low-noise pre-amps ensure high quality sound when used in project studios or in sound reinforcement. The multi-band EQ on mono channels gives you total control over your mix. Each model offers a high volume headphone output with independent level control. The AM series makes monitoring the mix even easier with dual multi-segment LED level meters and stereo control room outputs on select models. FX models feature a single user-adjustable multi-delay effect. Affordable and easily manageable, these AM models are ideal for the budget-conscious beginner.

Features:
- Inputs: 16 mic/line, 4 Stereo
- 40-bit digital stereo multi-effect processor with 16 programs
- 9-band stereo graphic EQ
- 2 stereo input channels with 4-band EQ
- 2 additional stereo input channels with level and prefader AUX facilities
- 3-band EQ plus switchable low-cut filter on all mono channels
- Inserts on each mono channel and main mix
- 4 subgroups and additional mono output
- 4 AUX sends for first 20 channels
- Clip indication and gain level set LEDs plus mute switches for each channel
- Solo-In-Place and Pre-Fader-Listen functions
- Full-featured talkback section
- Standby switch mutes all mic channels during breaks
- CD/tape inputs for playing break music
- Internal switching power supply with universal connector, 100-240V, 50/60Hz
