PLANET WAVES CP04 NS CLASSICAL GUITAR CAPO

The Planet Waves PW-CP-04 NS Capo Pro is designed specifically for use on classical guitars. A patented micrometer adjustment mechanism allows the player to dial in the exact tension needed for clear ringing notes without excessive force in any position on the neck. This greatly reduces the need to retune your guitar during and after capo use and helps deliver exceptional intonation. The sleek construction can withstand the toughest playing/touring schedule while adding negligible additional weight or obstruction to the instrument. Planet Waves NS Pro Series capos are the result of an ongoing collaboration between famed product designer Ned Steinberger, Jim D'Addario and Planet Waves.

Designed for use on classical guitars with a flat radius
Micrometer tension adjustment assures buzz-free in-tune performance at every fret
Single hand operation
Aircraft grade aluminum construction
Also available for acoustic and electric guitars with radiused fretboards
