QUIK LOK T500 KEYBOARD STAND

Supporto per tastiera , regolabile , nero

The ingenious "TRIGGER LOK" system designed by Quik Lok houses five positive lock height positions and is completely sealed, exposing no parts.
The mechanism allows the user to instantly open and close the stand from the top tiers without having to push or pull any knobs or buttons on the center disc, but by simply squeezing the trigger and releasing it once the stand is positioned at the desired height.
Constructed using heavy duty 30 x 30 mm steel tubing, the single-brace T500 is strong enough to hold keyboards up to 81 Kg
Easily expandable by adding any of the available QLX accessories.
Available in scratch-resistant, baked-on, non reflective, black enamel finish.
Options: QL662, QLX1, QLX3, QLX4, QLX5, LPHX
